

Chris Dirks | Full Stack Developer

 chrisdirks.developer@gmail.com |  (902) 580-5612 |  chrisdirks.com |  Remote

Professional Summary

Full Stack Developer with over 5 years of experience building scalable web applications using modern JavaScript frameworks. Skilled in both frontend and backend development, with a strong focus on user experience, maintainable code, and component-driven design. Proven track record of contributing to high-impact projects, mentoring developers, and improving code quality in remote, cross-functional teams.

Professional Experience

Miovision — *Frontend Web Developer* | Angular

 Remote |  February 2023 – March 2024

- Developed and maintained a scalable Angular component library to unify UI across multiple products.
- Mentored junior developers and improved team-wide frontend practices through coaching and guidance.
- Conducted regular code reviews to uphold code quality, reducing post-release defects.

Bullhorn Inc. — *Software Engineer III* | Angular

 Remote |  December 2020 – June 2022

- Built dynamic Angular forms with autocomplete features to enhance usability and performance.
- Created efficient data filtering tools to streamline workflows and reduce user friction.
- Refactored and simplified legacy stylesheets, improving maintainability and load performance.

HiringThing — *Frontend Engineer* | React

 Remote |  March 2019 – April 2020

- Led development of a responsive application form using React.js and Formik.
 - Migrated legacy Ruby components to React, modernizing the frontend architecture.
 - Implemented Redux-based state management for flexible handling of payment options.
-

Education

DeVry University — *B.S., Game & Simulation Programming* |  Addison, IL

Intel Corporation — *Software Engineer Internship* |  Hillsboro, OR
