PROFESSIONAL EXPERIENCE

Miovision - *Frontend Web Developer | Angular*
February 2023 - March 2024 | Remote
- Developed and maintained a scalable component library to standardize frontend across multiple projects.
- Mentored junior frontend developers, assisting them with code quality and development practices.
- Conducted code reviews to ensure adherence to best practices, leading to fewer post-release bugs.

Bullhorn Inc. - *Software Engineer III | Angular*
December 2020 - June 2022 | Remote
- Built dynamic Angular forms with autocomplete functionality to enhance user interaction.
- Developed data filtering functionality to improve user workflow and reduce app frustration.
- Simplified stylesheets by removing unnecessary styling rules, making them easier to maintain.

HiringThing - *Frontend Engineer | React*
March 2019 - April 2020 | Remote
- Led the development of a dynamic application form using React.js & Formik for a better user experience.
- Converted page elements from Ruby to React.js, enhancing frontend consistency.
- Implemented a Redux store for flexible management of multiple payment methods.
